답안지(OMR카드) 작성 시 유의사항

※ 답안지(OMR카드)를 작성할 때 다음의 유의사항을 잘 확인하여 불이익을 받지 않도록 하시기 바랍니다.

1. 고사실에서 나눠 준 컴퓨터용 수성사인펜으로만 작성하시기 바랍니다.
2. 답안 작성 후 수정액을 사용하면 해당 문항은 0점 처리됩니다.
3. 최종 마킹 전 1차적으로 답을 체크하려면 붉은 플러스펜만 이용하시기 바랍니다.
4. 다음은 정답 표기 사례들입니다. (가)를 제외한 나머지 표기들은 잘못된 표기로 채점 시 불리하게 작용할 수 있습니다.
5. 특히 (바),(사)와 같이 두 개 이상의 답에 컴퓨터용 수성사인펜으로 표기하면, 아무리 작은 표기라도 해당 문항은 0점 처리 됩니다.

올바른 정답 표기					
(가)	<input checked="" type="radio"/>	②	③	④	칸에 맞게 충분히 채움

잘못된 정답 표기					
(나)	①	②	③	④	점을 찍음
(다)	①	②	<input checked="" type="radio"/>	④	꺾쇠 표기함
(라)	①	②	<input checked="" type="radio"/>	④	일부만 표기함
(마)	①	<input checked="" type="radio"/>	③	④	일부만 표기함
(바)	①	<input checked="" type="radio"/>	<input checked="" type="radio"/>	④	중복표기함
(사)	①	<input checked="" type="radio"/>	<input checked="" type="radio"/>	④	중복표기함

공통문항

일반영어(공통)

[1-3] Identify the one underlined word or phrase that must be changed in order for the sentence to be correct.

1. In the letter signed a) by the entire staff, b) it was asked when c) would they receive the promised pay d) increase. [3점]

2. A binary star a) is actually a pair of stars that b) is held together c) by the force of gravity and seen from Earth d) as a single entity. [3점]

3. a) When winter descends b) to the bulk of North America, c) the climate of Florida d) remains mild and pleasant. [3점]

[4-6] The following sentences are incomplete. One of the four words below them will complete them. Read the sentences and choose the right answer.

4. In the course of living, precepts are not so important as habits. A habit is a living precept. To change one's precepts is no more than to change the title of a book. To change one's habits is to affect the essence of life, for life is _____ [3점]

- a) a series of habits.
- b) a series of precepts.
- c) hard to change
- d) governed by precepts.

5. Advice is like snow; the softer advice falls, the longer it dwells upon and the deeper it sinks into the _____ [3점]

- a) snow. b) mind.
- c) ground. d) giver.

6. Because of heavy traffic and the destructive effect of certain weather conditions, highways and streets need frequent repairs. A significant part of the total budget for roads must be spent on _____.[3점]

- a) bridges. b) safety education
- c) maintenance. d) signs.

[7-17] Choose the one or phrase that best completes the sentence(s)

7. The computer programs that have appeared since the appearance of the pentium chip_____so sophisticated that applications undreamed of just a few years ago are now possible. [4점]

- a) have become b) will be
- c) are being d) becoming

8. The debates of the state ratification conventions of 1787 and 1788 _____the need to provide amendments to the basic framework drafted in Philadelphia. [4점]

- a) made clear b) they make clear
- c) making clear d) makes clear

9. _____ to sting has been a subject of research by biologists at the university. [4점]

- a) What antagonizes the wasp
- b) That antagonizes the wasp
- c) Although the wasp is antagonized
- d) It is the antagonization of the wasp

10. No single individual has done more to better the situation of these impoverished people _____ [4점]

- a) then Mother Theresa.
- b) it being Mother Theresa.
- c) she was Mother Theresa.
- d) than Mother Theresa.

11. First and foremost among America's nineteenth century popular novelists _____ who thrilled readers with his tales of Mississippi river folk. [4점]

- a) Mark Twain came
- b) is coming Mark Twain
- c) comes Mark Twain
- d) Mark Twain was coming

12. Fertility of land is enhanced to a great extent by the presence of bacteria in the soil. Fertility would be reduced if the soil were _____ [4점]

- a) cultivated. b) sterilized.
- c) watered. d) fertilized.

13. When I first read the book, I accepted its ideas only tentatively, but since then they have become so entrenched in my philosophy that I can no longer _____ [4점]

- a) believe them to be true.
- b) make up my mind.
- c) think in any other way.
- d) partake of those thoughts.

14. The modern system of production often calls for a congregation of large numbers of workers in a particular area. This is a fact that has led to the development of large _____ [4점]

- a) cities. b) banks.
- c) markets. d) buildings.

15. Although most public transport is in concentrated population areas and provides access to stores, schools, cinemas, and so forth, the individual's mobility is relatively limited. But private transport provides almost unlimited freedom of movement. It _____ [4점]

- a) is less expensive.
- b) cannot compete with public transport.
- c) eliminates confinement.
- d) promotes the concentration of population.

16. Work has a very special meaning to a physicist. When any mass is lifted any distance, the physicist says that work has been done. The amount of work done does not depend on the path that the mass takes in moving this distance. The two important factors that determine work are _____ [4점]

- a) direction and mass.
- b) size and exerted force
- c) speed and distance
- d) mass and vertical distance.

17. There are those people who never admit to error of judgement, who are confident of always being right, who will acknowledge no merit in any viewpoint other than their own. Discussion between them and others is impossible, because their conversation is too _____ [4점]

- a) egotistical. b) erroneous.
- c) impartial. d) confidential.

[18-19] Identify the one underlined word or phrase that should be corrected or rewritten.

18. Accounting is a system a) meant for measuring business activities, b) processing of information into reports and making the findings available to decision-makers. The documents, which communicate c) this findings about the performance of an organization d) in monetary terms, are called financial statements. [4점]

19. Because we are frequently a) exposing to the work of psychologists in our everyday lives, we all have an idea about b) what psychology is and what psychologists do. Psychologists work in forensic fields, and they c) provide counseling and therapy for people in distress. But there are hundreds of thousands of psychologists in the world, and most of them work in other places, doing work d) that you are probably not aware of. [4점]

[20-22] Choose the one or phrase that best completes the sentences.

20. The redness of a blood clot is determined by the predominance of red blood cells, but the cells do not contribute to the formation, or to the internal structure, of the clot. When the clot develops, these cells are caught in the semisolid gelatinlike mass. By washing the clot in running water, it is possible to free it of red cells, so that the clot will _____ [5점]

- a) develop anew.
- b) change its shade.
- c) disappear completely.
- d) retain all of its properties.

21. A seventeenth-century German tried to create a vacuum by removing all the air from a container. He completely filled an airtight container with water, which he then tried to pump out. Since no air was in the container to start with and none could get in, he would have made a vacuum if he had been able to get all the water out. His first experiments failed, however, because the containers collapsed after only part of the water had been pumped out. This result proved that _____ [5점]

- a) water and air do not mix.
- b) air has great pressure.
- c) no one can create a vacuum.
- d) air weighs less than water.

22. The thyroid gland swells in many cases when the gland becomes defective and cannot supply an adequate amount of the thyroid hormone for the body. In this condition, more thyroid cells are produced, which in part compensate for the deficient activity of the individual cells. This compensatory reaction is illustrative of a general tendency of living organisms to compensate for their physiological defects. When part of an organ or tissue is destroyed, the remainder, by this principle, may _____ [5점]

- a) gradually die if not treated.
- b) cause illness by its excessive swelling.
- c) compensate by supplying all of the thyroid hormone.
- d) enlarge or increase its activity.

[23-24] Choose two words or phrases that best suit two blanks (A) and (B) respectively.

23. There is an apparent need for energy to perform physical work. Work has to be done to lift a load against the force of gravity, and there must be a source of energy to perform that work. The energy used in various activities can readily be measured, as can the metabolic energy yield of the foods that are the fuel for that work. This means that it is possible to calculate a (A)_____ between the intake of energy, as metabolic fuels, and the body's energy expenditure. Obviously, energy intake has to be appropriate for the level of energy expenditure; Neither excess intake nor a deficiency is (B)_____. [5점]

- | | | |
|------------|-------|-------------|
| (A) | | (B) |
| a) bait | | derivable |
| b) balance | | desirable |
| c) ballot | | detachable |
| d) bandit | | detrimental |

24. Environmental pollution is classified into various groups. For instance, pollution of air is termed as the atmospheric pollution, the pollution of hydrosphere or water is termed as water pollution, while pollution due to disposal of waste water is termed as industrial effluent pollution. Similarly, indiscriminate disposal of domestic sewage or sullage is called domestic effluent pollution. ----- these major sources of pollution, we have pollution of lithosphere or land, called soil pollution. For instance, pesticide residue contributes towards soil pollution. Urban areas are blessed with the menace of noise, which at times becomes ----- . It is called noise pollution. Some kinds of pollution lead to generation of smell or odour; and as such its measurement becomes important. [5점]

- | | | |
|-----------------------|-------|--------------|
| (A) | | (B) |
| a) Irrespective of | | transferable |
| b) Regardless of | | movable |
| c) In accordance with | | favorable |
| d) In addition to | | intolerable |

[25] Rearrange the following five sentences [A], [B], [C], [D] and [E] in the proper order to form a coherent paragraph. Then mark your answer.

25. [A] The notion of a critical period is true of many species and seems to pertain to species-specific, biologically triggered behaviors. [B] It unfolds according to what appears to be a maturationally determined schedule that is universal across the species. [C] Similarly, certain species of birds develop their bird song during a biologically determined window of time. [D] Ducklings, for example, during the period from nine to twenty-one hours after hatching, will follow the first moving object they see, whether or not it looks or waddles like a duck. [E] Such behavior is not the result of conscious decision, external teaching, or intensive practice. [5점]

The proper sequence should be

- a) [A]-[B]-[D]-[C]-[E]
- b) [A]-[C]-[E]-[B]-[D]
- c) [A]-[E]-[C]-[B]-[D]
- d) [A]-[D]-[E]-[B]-[C]
