W: Yeah. I don't know what's happening in our son Dave's life since we don't talk much these days.

M: I felt the same way. But using social media helps me understand him better.

W: What do you mean?

M: I follow him on his favorite social media service, and it allows me to know him more deeply.

W: Honestly, I'm not a fan of social media.

M: I know. *[Tapping sound]* But look at this. Dave often posts his thoughts and feelings on it.

W: Wow, he posts so many things about himself.

M: Yes. You can see what music and movies he's interested in. I think if parents use social media like me, they will understand their children better.

3. 다음을 듣고, 여자가 하는 말의 요지로 가장 적절한 것을 고르시오.

W: Good morning, everyone. I'm Sharon Parker from the Lenyard Consulting Company. I'm honored to be here for the employee training seminar. I've heard many of you are struggling to get your projects done well. However, there's one simple and effective way to improve your work performance. Ask your co-workers to give you feedback on your work. They may have fresh perspectives and be able to find creative solutions that you haven't thought of. Furthermore, this feedback helps identify your strong and weak points at work. So, you should seek your colleagues' feedback, which will help you to perform better in the workplace. Give it a try and see the difference.

M: Yes. I love it. You can sit in the chair and watch your kids.

W: You're right. I just noticed my dog is under the table. Isn't she cute?

M: Oh, she's so lovely. I also see there are three beach balls on the bench. Your kids must love playing with them.

W: Yes, they do. They're gifts from their grandmother.

M: Look at the "NO RUNNING" sign on the wall. Does it make your kids more careful?

M: Of course. Around 80 people are expected to come, so it'll be large enough. How about the presentation handouts?

W: I got them from Mr. Lee and made copies of them.

W: How interesting! How much is it?

M: It's \$30.

W: Then, we'll get that as well.

M: Okay. So that's tickets for two adults and one child along with the family photo service, right?

W: Yes. Are there any discounts available?

W: Why not then? You have almost one month to prepare because the contest will be on July 13th.

M: Well, I don't have a problem preparing by then.

W: That's good. Hmm. Is it because you have vacation plans?

M: No, I'm not traveling.

W: You're right. Hmm, they come in several materials. Which one would be good?

M: I don't recommend plastic. Since it's light, it's too easily knocked over.

W: That's true. You know, the bear ones look cuter than the elephant ones. Plus, bears are my nephew's favorite.

M: Well, you have two options left. Do you think your nephew needs one with a phone stand?

W: Of course. It'll be convenient for him.

M: Then you should go with this one.

W: Thanks for helping me. I'll order it now.

M: Hello, students. Do you know how widespread photography is in our contemporary life? Today, I'd like to talk about the practical applications of photography. It's commonly used in several areas. Here are some examples. First, people use photography to look out into space. Photographs are used in space science to study other planets in our solar system and even distant stars. Second, photography is heavily used in biology to show what cannot be seen with the naked eye. Biologists often use photographic images to study life forms that are extremely small. Third, photography is used extensively in medicine. X-ray film reveals patients' inner structures, which helps doctors to choose the best treatment. Lastly, photography provides a useful tool for education. Photographs allow learners to visualize unfamiliar concepts and abstract ideas in clear and concrete ways. Various uses of photography are constantly being developed in the modern era. Now let's watch a video about how photography is applied for practical purposes.
